

## Linedata Capitalstream Awarded “Most Improved” Commercial Loan Origination Solution by Aite Group

PARIS, NEW YORK, SEATTLE, TORONTO and LONDON, November 22, 2017 - Linedata (Euronext Paris : LIN), the global solutions provider dedicated to the investment management and credit industries, announced it has received an award from Aite Group in a recently published Commercial Loan Origination study.

In noting the rationale for this award, Aite Group stated that Linedata “rebuilt Linedata Capitalstream process by process over a period of nine months. The result is a solution with screens that are simpler and more elegant, and they also deliver more functionality than the prior version of Linedata Capitalstream. This was achieved primarily by populating screens with fewer objects, which are now more interactive than those that were previously available”. Aite Group went on to say that “vendor stability, one of Linedata’s strong suits, is driven by this vendor’s high percentage of revenue invested as R&D, favorable reviews of management by end users, profitability, and this vendor’s size as measured by both headcount and revenue.”

Raegan Stuart, Executive Vice President, Head of Lending & Leasing North America, said: “We are thrilled to be honored with this award from Aite Group which confirms Linedata’s commitment to invest in the Linedata Capitalstream solution, to continuously add value for our clients and to position the solution as best in class for our target market of leading lenders in commercial lending and equipment finance”.

The Linedata Capitalstream origination and risk management solution automates disparate, paper-based and high-touch operations into a fully-integrated, straight-through processing solution. Linedata Capitalstream provides the business intelligence and process optimization that credit teams need to manage risk, assure compliance, streamline product delivery and grow customer relationships.
