

## Linedata hosts 2017 Industry Conference in London

May 29, 2017

Digital transformation, the survival of the hedge fund industry and a centrepiece debate on the future of doing business in Europe will be among the key topics at Linedata's annual conference, taking place on 7 June 2017 at Kings Place, London. More than 150 financial and IT industry specialists are expected to attend the event.

The conference will offer a two-stream agenda, providing business insight and discussion around key challenges facing decision makers in the asset management, leasing and credit industries. Linedata's senior in-house experts will be joined by pannelists from Man Group, Baillie Gifford, BOV Fund Services, Eurobank Asset Management, Pensato Capital, Aite Group, FLA, Fathom, TT International, Rise Finaancial Technologies, HFM Week, Apex Fund Services, Meeschaert Asset Management and IAA-Advisory. The keynote speaker will be Tim Harford, the award-winning Financial Times columnist and behavioural economist.

Patricia Regnault, Head of Asset Management, Europe, Linedata says: "Linedata Exchange conferences attract an international range of industry figures and are go-to events to engage with peers and experts on the subjects which matter most. Faced with ongoing regulatory, economic and political change, it's never been more important for the industry to plan ahead and make the most informed decisions possible. We're committed to continually improving our flagship conference as a forum to network and gain insights, as well as providing the opportunity to mix with senior industry experts both formally and informally."

Linedata Exchange Europe forms part of Linedata's flagship global event series, with events hosted annually over three continents: North America, Asia and Europe. Launched in 2010, this global series of events has been attended by over 900 industry participants worldwide each year.
