

Linedata Ekip³⁶⁰

Seamless, end-to-end coverage for the entire value chain of lenders and lessors.

Linedata Ekip³⁶⁰ is an end-to-end software solution designed to automate and manage finance operations for the lending and leasing industry. As a global solution deployed in more than 25 countries, it is multi-currency, multi-lingual, multi-country and seamlessly covers the entire value chain for equipment, automotive and consumer finance providers. For simple to very complex lending and leasing operations, and clients ranging from banks to auto finance captives and credit companies, Linedata Ekip³⁶⁰ aids in consistent and efficient day-to-day portfolio management.

Optimize management of the customer relationship lifecycle

Linedata Ekip³⁶⁰ offers consistent customer relationship management powered by its ability to provide a clear overview of all the financing components at customer, contract or asset level. The configurable user interface is intuitive and user-friendly, providing your teams with ease and simplicity. The business processes, the web page content, and the associated rules can be customized to your organizations' preferences by a powerful configuration and workflow engine.

Increase productivity for all roles in the financing process

Using the Linedata Ekip³⁶⁰ solution ensures the quality and integrity of data and calculation methods, delivering increased productivity, easier integration, and robust consistency from first contact with the client to contract termination.

Make more informed decisions

Linedata offers powerful front-to-back office software solutions to lenders and lessors. Built with commercial lenders, equipment financiers and automotive lessors in mind, Linedata provides end-to-end efficiency and consistency to evolving institutions. An integrated business intelligence (BI) solution summarizes your company's activity using dynamic reports and graphics to help with your decision making. Easy-to-digest dashboards provide you with a hub of information.

Evolve and grow

Linedata Ekip³⁶⁰'s service architecture ensures easy integration into your existing IT landscape. It provides the robust platform of Oracle standard technology for the best possible management for organizations originating a couple thousand of contracts to very large contract volume in Unix/Linux environments. Rest assured that Linedata Ekip³⁶⁰ can support your organization and still be the right tool as you grow.

Even if you had endless time, we don't think you should waste it on something our software can do.
Linedata Ekip³⁶⁰ provides efficiency at every point in the transaction lifecycle, saving your organization time and money.

Origination

- Manage your entire acquisition lifecycle with our point-of-sale solution, whether you are a broker, dealer, or vendor.
- Take advantage of the built-in pricing engine to reduce time and log ins.

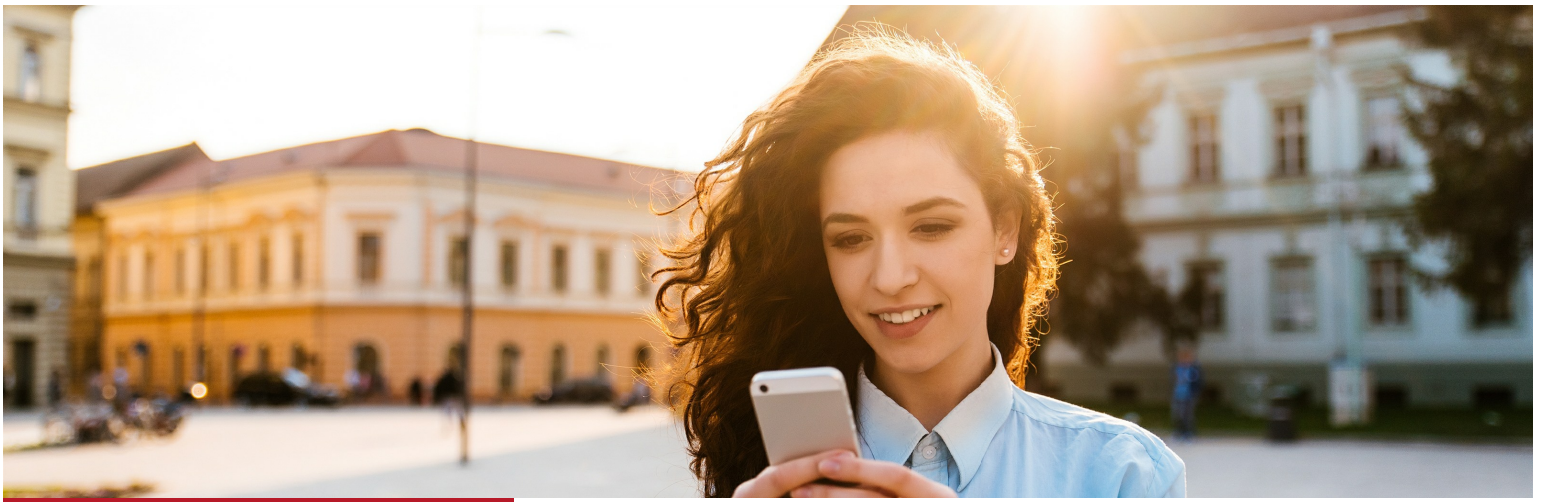

Underwriting

- Streamline and secure your approval procedures with an integrated decision-making engine.

Servicing

- Optimize your processes with a powerful workflow tool to improve portfolio management.
- Manage the post-close life of lease or loan from creation to termination or completion.

Our clients
