

## Cognitive Investment Data Management

Custom AI-driven front office data management solution for asset managers and alternative funds.

Digitalization and the data explosion are creating exciting new ways to generate alpha. For some managers, this means more time to pursue big ideas. For others, it means information overload, tough decisions around technology and staffing, and the risk of losing ground to the competition.

**If you're not ready to automate investment data management and do not want to add resources internally, Linedata can help.**

Our Cognitive Investment Data Management service not only derives relevant information using Artificial Intelligence and Natural Language Processing, it also delivers intelligent insights that truly add a competitive edge to your investment management process.

Win time to drive key decisions that help you grow revenue and achieve operational efficiencies, using our proprietary solution which exclusively works for you.

### Enabling better business outcomes

#### Boost effectiveness with guaranteed accuracy

Proven technology and methodology deliver accurate private and public coverage data in the right format so you can make sound investment calls with confidence

#### Scale operations while controlling cost

Stop missing investment opportunities. Our 24/7 service extends your day and expands your market coverage without growing your overhead

#### Act faster to spot alpha

Intelligent data extraction cuts opportunity screening and idea validation times by 60% compared to analyst-driven research, empowering you to act faster

### Why Linedata Global Services?

- The premier services firm to the Asset Management and Alternatives industry across all asset classes and strategies, digitally transforming your business to deliver superior outcomes
- We tailor our approach, giving you the flexibility to scale up or down as needed
- Our teams are highly qualified. They have worked in the industry themselves, so they know your business
- Cognitive Investment Data Management is offered as a service on a consumption-based model, with guaranteed levels of accuracy

## Benefits of Cognitive Investment Data Management

- Speeds time to value with the right information in the right format
- Delivers productivity gains by substantially reducing the time spent on information extraction and processing
- Enhances creativity, quality, and job satisfaction across your organization
- Frees your analysts' time to deliver more ideas and identify new opportunities
- Eliminates human error with AI/ML-driven automation
- Is rules-based: no copy/paste or data entry errors
- Combines advanced technology with deep domain expertise and years of process knowledge
- Respects data privacy and confidentiality requirements, including private coverage
- Feeds ready-to-use data directly into your proprietary models and templates
- Provides complete control, with full oversight and a secure platform and user interface

## We cut through the noise to help you turn information into insights.

Don't miss another investment opportunity because you lack time or relevant information. Our Cognitive Investment Data Management service will help you scale and enable you to further strengthen your investment management process.

Spend your time on what matters most – ideation, meeting with industry experts and investors, making sound decisions – and relaxing away from work.

Leverage one solution that works across the capital structure, market, and strategy of your choosing.
