

Reimagine the future. We transform your business.

Technology is ever-changing. We constantly reinvent solutions and focus on innovation to give your business the edge.

Technology has created a unique set of opportunities and challenges for investment firms. Correctly leveraged, IT is transformational, but when out of date or improperly maintained, it can limit your ability to focus on core business.

Linedata Technology Services will enable you to transform your operations. From public and private cloud to cybersecurity and managed services, we'll help you ensure that technology is always a catalyst for achieving your desired outcomes.

Why Linedata Global Services?

- As a dedicated Managed Services Provider to the buy-side firms for over 25 years, we are relied upon by leading hedge funds, private equity firms and portfolio companies for their infrastructure and cybersecurity needs
- Our track record proves client satisfaction. We have strong SLAs and many of our clients have been with us for decades
- Our teams are highly qualified. They have worked in the industry themselves, so they know your business
- Our people are what make the difference. We're proud of our relationships at the C-suite level and you'll have quick, easy and direct access to our senior management when you need it
- We tailor our approach, giving you the flexibility to scale up or down as needed
- Our team is an extension of your business. We integrate seamlessly with your people, systems, and processes, providing 100% reliability and continuity while you stay lean
- We're independent, offering the advantages of a large, global business with the customer-centricity of a small company, giving clients what they need not what we tell them they want
- Our clients trust us because they know we believe that only exceptional service is good enough
