

Linedata Longview OMS Suite

Optimized portfolio management, trading & compliance

Award-winning order management solution provides a highly configurable set of tools to streamline your portfolio management, compliance, trading, risk, and decision making.

Real-time insights across the investment lifecycle help you quickly identify and respond to opportunities.

Our modular platform reduces cost and operational risk, driving efficiencies. With Linedata Workstation, our extensible, widget-based framework you can view, interact, and take action based on insights from all the information stored within your Linedata front-office platform.

We help you optimize portfolios, seamlessly integrating hundreds of trading destinations, and supporting you with agile technology that evolves as your business does.

“

"Our partnership with Linedata gives us enhanced order management tools, integration with partners, and workflows that will reduce risk and add efficiencies benefiting both our firm and our clients."

CEO, Wealth Manager \$30B+ AUM
