

Linedata Loansquare

Evolve your customer experience with our digital loan application.

Attracting and retaining business customers starts with understanding their world. Along with personalized service and customized solutions, business customers appreciate convenience and ease in their lending relationships. Applying for a loan should be clear, simple and digital so your customers can stay focused on their business.

Linedata Loansquare allows your financial institution to provide a modern financing experience, complete with clean forms and speedy processes. White-labeled with your branding, it provides your current customers and new prospects with a 24/7 digital loan application. It's also a convenient self-service hub for your customer to view their current loan requests and status updates and communicate with their relationship manager.

Offer your customers convenience and transparency.

Digitize your loan application process

New and existing customers can apply for loans anytime, anywhere and from any device. Using an out-of-the-box API, Linedata Loansquare can be integrated with your LOS and pre-populated with application information for existing customers.

Reduce the burden of submitting documentation

Applicants can upload credit documentation into Linedata Loansquare, securely and simply. Borrowers will be promoted to upload certain documents based on your criteria for the product selected. If more documentation is needed, the customer is alerted.

Answer questions within the portal

Throughout the origination process, applicants can return to the portal at any time to follow their application status. If customers have questions, they can send and receive messages with their lender or the customer service team right within the portal.

Build long-term loyalty

Keep customers close by integrating Linedata Loansquare with your servicing system to provide up-to-date information like balance and maturity. Additionally, customers can satisfy covenants within the portal.

Improve your customer experience and increase your throughput.

Enjoy easy integrations

Implement and benefit quickly. Linedata Loansquare comes with out-of-the-box APIs, so you can easily integrate the portal with your loan origination system.

Enhance efficiency and integrity

Linedata Loansquare eliminates duplicate data entry, saving your institution time, reducing human errors and increasing data integrity.

Configure to your specifications

The digital application can be configured to match your business practices. It's easy to add new products so you can drastically reduce the time it takes to bring new options to the market.

Increase conversions

You'll have a view of started and not submitted loan applications. By following up with the borrower, you can ensure a simple question didn't prevent them from applying.

Increase lead generation

Link to your digital application from your website, banking app, payment portal, marketing material to capture transactions.

Our Lending and Leasing Ecosystem

Linedata's four lending and leasing solutions offer end-to-end coverage of the credit lifecycle. All of our solutions can standalone and integrate within your existing IT landscape or be combined for a seamless journey. Between our self-service borrower portal, loan and lease origination systems, servicing and syndication solutions, we help financial institutions build efficiency, manage risk and scale.
