Linedata Lending & Leasing
Our syndicated lending solution

Introduce new efficiencies and services to your customers, teams and partners

To prosper in a business as challenging as syndicated lending, financial institutions need the right IT partner to help them provide premium services to their customers, teams and partners. Linedata's syndicated lending solutions empower institutions to successfully:

- Manage a wide range of transaction types (multifacility, currencies, products and more)
- Accommodate complex syndications
- Enhance services through a self-serve client and partner accessible portal
- Streamline processes with our set of standard APIs and workflows

| Corporate | Energy | Real Estate | LBO | Infrastructure | Shipping | Aircraft | Export |

On the road to automation and digitization:

At each step of the syndicated loan lifecycle, you can enhance and streamline your processes to bring value-added services to your lending team and clients.

Origination	Closing	Servicing
• Client follow-up	• Credit decisionning	• 360° view
• Automated processes	• Easy navigation	• Workflows aligned with your financial institution
• Electronic signature	• Documentation management	• Efficiencies allow you to meet virtually any deadline
• Third-party connectivity	• Fast deal creation	• Proven dashboards and reporting capabilities

Transform your syndicated lending activity with Linedata's modular solutions:

Loansquare → Portal access & data room → Agency & portfolio → **Ekip³⁶⁰ for Origination** → Pricing engine → Assessment & internal validation → **Ekip³⁶⁰ for Servicing** → Deal management → Output management
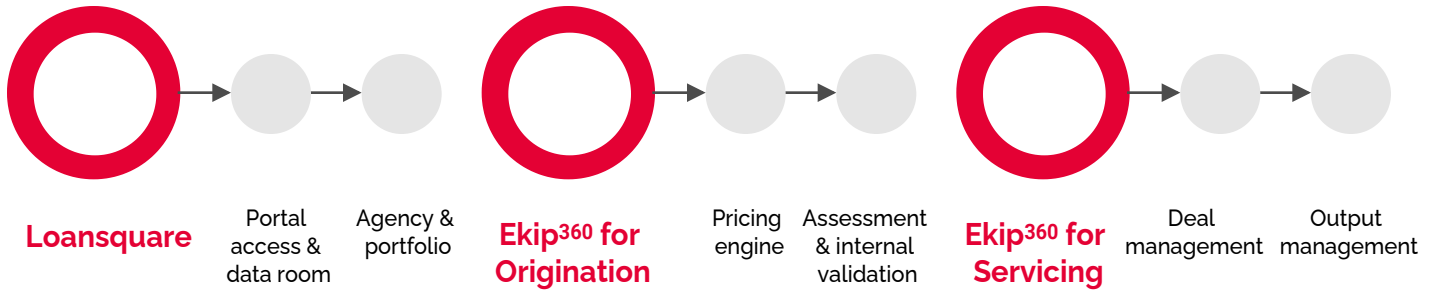

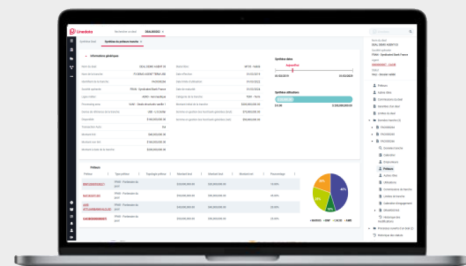

Customer use cases for syndicated lending:

Portal solution
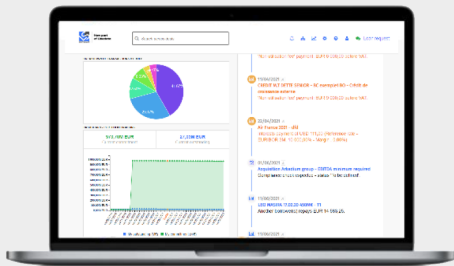

Improving our client's ability to make quick decisions while digitizing exchanges with customers and partners.

- Portfolio and agency management for a top tier bank
- 500+ LBO deals monitored within the portal
- Task management, reporting and calculation engine

Deal management solution

Helping our client to streamline internal processes and improve efficiency.

- Support across all lines of business (project, LBO, etc.)
- Workflow and event administration
- Artificial intelligence module (sales/user support)
